FAB TABS

BACTERIOSTATIC SLIME & ODOR CONTROL TABLETS

EPA REGISTERED – These self-metering tablets prevent the growth of disease causing organisms which accumulate and grow in the dark, wet environment found in evaporative coolers, air conditioners and humidifiers.

Bacteria contributes to the formation of slimy masses which entrap soil and dust causing foul odors and respiratory problems. They also block drain pan outlets which causes drain overflow. On heat exchangers they cut operating efficiency.

FAB TABS kills unpleasant odors then stops the growth of the organisms which are the source of odors and the cause of clogging slime. One tablet provides protection for up to three months.

INHIBITS THE GROWTH OF

- Thermoactinomyces Vulgaris •Pseudomonas Effusa
- Pseudomonas Aeruginos •Bacillus Circulans •Bacillus Licheniformis
- Bacillus Megaterium •Aerobacter Aerogenes •Escherichia Coil

FOR USE IN

- MANUFACTURING PLANTS •PRISONS •ARENAS
- SUPERMARKETS •APARTMENTS •OFFICE BUILDINGS
- SCHOOL DISTRICTS •HOSPITALS •HEALTHCARE FACILITIES
- HOTELS •NURSING HOMES •RESTAURANTS •MUNICIPALITIES

DIRECTIONS

For up to 30 gallons of water, drop 1 tablet into the humidifier reservoir, evaporative cooler or air conditioner drain pan. Apply 1 additional tablet every 3 months or whenever odors occur. Treatment may be more effective if drain pan or reservoir is emptied and cleaned with BETA KOIL before tablet application.

BETA DATA

BOILING RANGE:	N/A	LIQUID DENSITY:	LIGHTER THAN WATER
VAPOR DENSITY:	N/A	COLOR:	WHITE
SOLUBILITY:	SOLUABLE	APPEARANCE:	TABLET
V.O.C.	0.00	ODOR:	NONE
